

Landscaper Series

Hydroseeding Systems

L30

Easy Lawn's Landscaper Hydroseeding Units are smaller capacity units with enough performance to do the jobs when necessary. The L30 is designed for the landscaper, municipality or contractor who does occasional seeding, but still needs professional performance. The L30 comes standard with Easy Lawn's Recirculating Jet Agitation System that assures fast mixing, trouble free operation, and easy clean out. The L30 will fit into the bed of a standard 8' bed pickup and includes fork pockets for easy loading. These units come standard with two large radius hose hooks to hold the hose without kinking. The exclusive easy change nozzle system makes it fast and easy to change the nozzles at the end of the hose. Just unscrew the nozzle by hand and screw on the new nozzle, no tools required. The Easy Lawn gun assembly is compact and light weight but still durable to reduce operator fatigue, while still allowing full flow.

Specifications:

Engine:	3H	11.7 HP Honda Gas
Tank Size:		300 Gallon Polyethylene
Fuel Capacity:	3H	1.6 Quarts (US)
Pump:	3H	3"x2" Centrifugal Pump 300gpm/43psi
Pump Drive:		Direct Drive
Agitation:		Jet Agitation
Fillwell:		16" w/ Molded Polyethylene Bale Hopper
Hose:		100' of 1/4" Clear Braid Hose
Nozzles:		1 Wide Fan, 1 Narrow Fan, and 1 Straight
Max Material:		120 lbs. Fiber Mulch
Material Type:		Paper Fiber, Some Paper/ Wood Blends
Empty Weight:	Skid 3H	788 lbs.
Full Weight:	Skid 3H	3,413 lbs.
Length:	Skid	8'0"
Width:	Skid	4'1"
Height:	Skid	4'6"
Estimated Coverage:		4,000 sq.ft.
Hose Reel:		Manual
