HydroSeeding Systems

L90

Easy Lawn is proud to present a workhorse for the hydroseeding market. The L90 is designed for medium to large residential and commercial sites and can apply seed, fertilizer, and mulch in one fast, efficient application. This unit comes standard with Easy Lawn's exclusive HPV pump that generates the most pressure and volume available in a unit of this size. The unit comes standard with 100' of 1 1/4" hose, a mulch grinder, turret gun, and electric hose reel. The turret is capable of spraying distances of up to 145' while the hose is spraying at the same time. Interchangeable fan nozzles allow the operator the ability to apply the mulch with maximum control holding the spray pattern within one inch. Large jobs can be done in record time using the turret and hose simultaneously. The L90 comes standard with Easy Lawn's Recirculating Agitation System that assures fast mixing, trouble free operation, and easy clean out. The L90 is a dual axle trailer.
